- parasol, 41, 42, 50, 53, 171
- receptive fields, 65, 71

Retinex theory, 159, 171, 274

S

Same Drive Signal (SDS), 204

Saturation

- channel, 199, 204
- colour, 152, 194
- measures, 153
- response, 75

Scene

- contrast, 77
- depth, 270
- illuminant, 161
- irradiance, 78, 223
- luminance, 111, 118, 120, 257
- radiance, 269, 278
- RITTiger, 283

Screen

- cinema, 6, 181
- sizes, 178, 182

Sequential contrast, 4

Source gamut, 186, 187, 192, 204, 206

Spontaneous firing rate, 28, 29

Standard

- colour spaces, 136
- distribution gamuts, 185
- gamuts, 5, 147, 186, 194
- illuminants, 139, 144, 153

Static scene, 277, 278, 282

Stimulus

- achromatic, 58, 59, 173
- arrangement, 100
- chromatic, 49
- configurations, 105
- contrast, 50
- discriminability, 71
- ensemble, 70
- features, 70
- luminance, 71, 118
- modality, 96, 98
- monochromatic, 153
- response, 76

Structural content (SC), 208

Surface colours, 5, 186

Surface lightness, 118

Surround

- condition, 249
- dark, 110, 111, 165, 230, 250, 252, 256
- environments, 248
- Gaussian, 171
- illumination, 146
- luminance, 9, 100, 109, 111, 117, 125, 247, 248, 254–257
- regions, 60
- signals, 170

Synthetic stimuli, 123, 124

T

Target gamut, 186, 187, 189, 190, 192, 194–196, 200, 201, 205, 206

Temporal

- colour consistency, 197
- contrast, 71
- response, 32

Tone curve, 226, 229, 231, 233, 259, 265

Tone mapping (TM), 4, 5, 8, 9, 69, 77, 79, 119, 125, 151, 169, 215, 216, 224, 226, 228–233, 247, 248, 251, 254, 257, 264, 269, 274, 275, 287

Transfer function (TF), 125, 257

Trichromacy, 26, 35, 36, 133, 185

Trichromatic system, 140

Trichromatic vision, 24

Tristimulus, 135, 141, 145

U

Ungraded content, 231, 232, 236, 237, 242, 255

V

Visible artifacts, 8, 95, 120, 124, 187, 278, 283

Vision

- colour, 7, 27, 42, 47, 59, 60, 133, 194, 198, 296
- emulation, 228
- human, 7, 218, 232
- modelling, 28
- models, 9, 187, 216, 217, 222, 224, 228, 242, 295, 297, 299
- principles, 217
- science, 7–9, 28, 61, 210, 215, 217, 296, 299
- studies, 216

W

Weber contrast, 73, 118

Wide colour gamut (WCG), 1
